

## **Bayshore HealthCare chosen by Forbes as one of Canada's Best Employers of 2016**

*Acknowledged in the Healthcare & Social industry*

**Mississauga, April 13, 2016....**A recent independent survey of over 8,000 employees in more than 1,500 businesses in Canada has recognized Bayshore HealthCare as one of *Canada's Best Employers for 2016*. This is the first year that Forbes Media Group, along with Statista Inc., conducted this survey in Canada.

"Congratulations, Bayshore HealthCare is one of the 250 best employers out of 1500 companies in 25 industry sectors in Canada," wrote Dr. Friedrich Schwandt, CEO of Statista Inc., who, with Forbes Media, created the award program.

As part of the selection process, Forbes asked Canadian workers to determine, on a scale of zero to 10, how likely they were to recommend their employer to someone else. Also, they were asked how they felt about the other employers in the industry. Participation in the survey was voluntary. The mix of respondents (gender, age, region, educational level, ethnicity) in the sample is representative of the Canadian workforce.

The basis of the survey was to find out the attitude of the employees towards their own company and the public perception of a company by industry employees.

"This achievement is truly an honour since it is directly based on feedback from our Bayshore employees," says Stuart Cottrelle, President of Bayshore HealthCare. We've always believed that creating positive work experiences for our more than 11,000 employees is at the foundation of the exceptional care we provide to clients each and every day."

Other well known Canadian companies on the list include Bombardier Transportation, BC Hydro, Sick Kids Hospital, Sheridan College of Applied Arts and Queen's University.
