

Services to help you  
get the right care  
for your clients

## Future Cost of Care Evaluations

At Bayshore Therapy and Rehab, we believe that Future Cost of Care Evaluations are essential to every injured person because they provide peace of mind about the direction of care for the future.

- We provide Future Cost of Care Evaluations throughout Canada.
- We have a large roster of Certified Life Care Planners, Future Cost of Care Assessors and Expert Witnesses.
- We tailor the cost of our Evaluations to you and your client's needs.
- You will be guaranteed a high quality defensible report and excellent customer service.
- You can expect a Future Cost of Care Report that details your client's ability to participate in personal, home, and community-related activities, types of services and supports necessary to facilitate current and future levels of function, and a summary cost chart.

## Catastrophic Assessments

Bayshore's assessors have experience and expertise in both the old and new legislation definitions, including: brain impairment (child and adult), physical impairment and mental/behavioural impairment. We help you decide the best approach for your client. Our services include:

- OCF19 completion by physician or neuropsychologist
- Detailed file review by AMA Certified assessors
- Physician Review
- Neuropsychological assessment
- Glasgow Outcome Scale
- Glasgow Outcome Scale Extended
- Kings Outcome Scale For Childhood Head Injury
- OT In home assessment
- OT Situational assessment
