

ASSURED LIVING

PEACE OF MIND
FOR YOU & YOUR
LOVED ONES

INTRODUCING **ASSURED LIVING**

They were always there for you. They watched over you, guided you, and protected you, all while building their own lives and chasing their own dreams.

Now, help them enjoy this time of life, where they can sit back, relax, and reap the benefits of their hard work... all from the familiar comfort of the very home they created. You get to help them, and we at Best Buy and Bayshore HealthCare want to help you make the most out of it.

WHERE THE HEART IS

From the hallways full of memories to the rooms full of milestones, home is a place they want to cherish, not leave.

But watching your loved ones go into this phase of their life from afar can be worrisome, which is why our program offers tech solutions to address your most common worries.

From motion sensors to fall alerts and smart home assistants, give yourself and your loved ones the safety and security of knowing that they are free to chase new dreams and passions without fear.

STAY CONNECTED

The bonds you've formed are the foundations of a full life. The Assured Living Solution means you can stay connected with your loved ones even when you are not nearby. This means you can have peace of mind knowing they are well and you can still help them from a distance.

Discover how our range of Assured Living Solution can help you and your loved ones keep those bonds stronger than ever.

SOLUTIONS FOR LIFE

Our Assured Living solution includes:

- Easy access to a specialized nurse through Bayshore's Nurse Concierge program for your loved one
- Activity indicators reporting on physical wellness to keep you informed
- Get access to wellness trends and reports that you can share with a medical provider or other family members for better insight into potential health issues
- A camera doorbell so you or your loved one can always know who is at the door
- A Smart Lock for the door that allows you or your loved one to lock and unlock the door, grant key-less access, and keep track of who comes and goes
- Fall alerts that instantly reach you
- Reminders of routine tasks to help your loved one stay on track. For example: medication or meal reminders and doctor appointment reminders
- Google Home, which lets your loved one have some fun and get help with their day to day activities at home. For example, play favourite music or give meal recommendations
- 24/7 access to Best Buy's expertise to help keep things simple

LIVE WITHOUT LIMITS

There is an entire world of possibilities out there for you and your loved ones. We can help you achieve them.
